## About IEC

Independent Electrical Contractors (IEC) is a national association focused on developing the professional electrician workforce. IEC's expansive product portfolio plays a crucial role in recruiting, training and developing electricians – from new apprentices through experienced masters - to be best-in-class professionals. IEC serves the industry by training, promoting and advocating for our members

and professional electricians in general. By focusing on “the people behind power,” IEC serves our members and industry by ensuring there is a current and future qualified workforce of well-trained electricians who embody and value the merit-shop philosophy by prioritizing, rewarding and recognizing professionalism, quality service and safety.

# IEC Audience

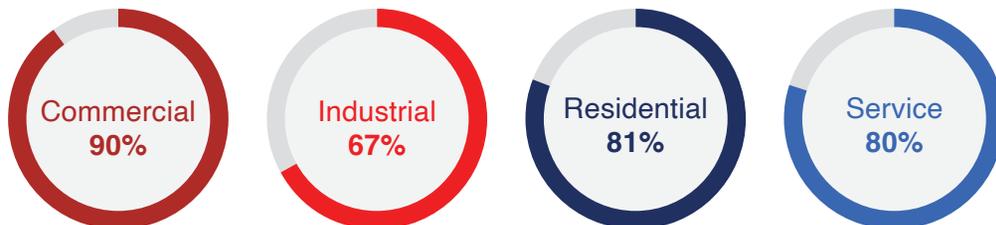

**5,000+** Total Members  
4,000+ MEMBER COMPANIES

**53** Professional Chapters

## Industry Specialization of IEC Members

Reach More Than 4,000 member companies & their employees

- Presidents
- Vice Presidents
- Project Managers
- General Managers
- Foremen
- Field Electricians
- Electrical Apprentices
- ...and more

## Sales Volume of Member Companies

# Strategic Partners

Share your knowledge. Generate quality leads. Grow your brand awareness. Show off your industry expertise.

# Year-Round Industry Sponsor Program

IEC Sponsors receive the highest level of customized benefits and exposure on a year-round basis to reach electrical contractors. Sponsors receive combined assets from across the IEC organization to foster brand awareness, thought leadership, and maximum visibility at SPARK to achieve specific business objectives. Contact Kevin Davoren to discuss your custom Strategic Partnership, or a Power or Circuit sponsorship opportunity outlined to the right.

# IEC Brand Awareness Offerings

Brand awareness, simply put, is the understanding and recognition of your company's products and solutions to the customer. With so many marketing messages and ads a consumer sees each day, it's important to keep your brand top of mind and memorable to your target audience.

## Benefits:

- Build trust with your audience
- Cuts through all the marketing noise and clutter
- First step for your target consumer to enter the purchase journey
- Your brand's first impression - and first impressions mean everything!

**December 2023**

This has been one of the fastest years yet for me! As you grow older the years do go by faster, but this one went by too fast. Looking back, I graduated on Saturday, May 19, 1975, from IEC, and early that next Monday morning I was starting my first job for \$5 an hour working under my father. I have come a long way since then!

IEC Nation we were on the move - 2023 has been a great year! We have:

- Created new curriculum to move us forward in the industry and in the low voltage area. Hats off to the Apprenticeship & Training Committee for moving the needle. [Contact](#) your local Chapter Executive Director to see if they are offering this course and for more information.
- Increased our membership by 5.99%
- Added a new provisional chapter in Raleigh, NC. We are off to a good start.
- Revamped our annual SPARK event to attract more attendees from 2022 and 103 exhibitors with 47 new exhibitors.
- Broke the record for the amount of apprentices completed with 40 competitors.
- Added new Industry Partners to help support IEC, added three new Power Sponsors - ChargePoint, Rho, Rivet Work, Remarkable, and Klein.
- Consolidated with NECA and IBEW to keep all of the electrical umbrella for permitting and apprenticeship.
- Structured a new deal with Innovatis Group to move forward.

The list goes on and on. We have a packed agenda for 2024 and we will continue to grow in the right direction.

Don't forget to register for [Business Summit](#) in Charlotte. It's a great opportunity to network, collaborate, and learn. View the agenda, and register using the link [here](#).

Thank you all for a prosperous and wonderful 2023. It has been a huge honor to serve as the 2023 IEC National President and serving with so many wonderful people, all pulling in the same direction. Thank you!

**It's not how you start, it's how you finish!**

Understanding Barriers to Entry in  
the Electrical Trade, is available

# IEC Workforce Development Institute

The IEC Workforce Development Institute was formed in 2023 to advance the electrical profession and future workforce through research. More importantly, the WFDI will support research to practice- moving the needle on critical industry issues and workforce development by activating solutions aligned to research findings.

Contact Lisa Crews, [lisa@ieci.org](mailto:lisa@ieci.org), to learn more and join us to activate future studies.

# 2024 Event Offerings

## IEC Policy Conference

June 10-12, 2024  
Washington, DC

Join us on Capitol Hill to advocate for the merit shop philosophy and address industry policies. Engage with federal officials, gain insights from the Biden administration, participate in lobbying efforts, and connect with fellow advocates. Whether you're a business owner, manager, chapter staff, or industry leader, this conference offers professional lobbying training and networking opportunities to drive positive change in our legislative landscape.

## IEC Safety Summit

August 20-22, 2024  
Milwaukee, WI

Safety is the most important aspect of your career and understanding the National Electrical Code is imperative. Don't miss the opportunity to up your game and get the tools you need to implement and maintain an effective safety culture in your organization while learning what the NEC has in store for 2024 to safeguard electrical contractors from hazards associated with electrical installations.

## SPARK 2024

October 14 – 16  
Tampa, FL

At SPARK, you'll have the opportunity to attend innovative educational seminars, visit the state-of-the-art Expo Hall, listen to special guest speakers, and attend numerous networking events. The exciting schedule will provide plenty of time to get to know electrical industry professionals from around the country who represent a broad range of organizations, skill sets, industries, experience levels, and interests.

INDEPENDENT ELECTRICAL CONTRACTORS PRESENTS

## IEC Business Summit

January 26-29, 2025  
San Antonio, TX

The annual IEC Business Summit is the event that brings together the electrical contracting workforce and its leading business experts. The industry's top professionals are given the opportunity to come together to network, collaborate on new ideas, and learn how other experts in the business are succeeding.

# IEC SPARK 2024 Event Offerings

## SPARK 2024

Through our network of geographically diverse electrical contractors, SPARK provides the opportunity to drive organic growth through your existing customers or to generate net-new leads that will propel your company through 2024 and beyond. During this year's event, IEC aims to influence the state of Florida with a reconstructed event format to engage prospective customers.

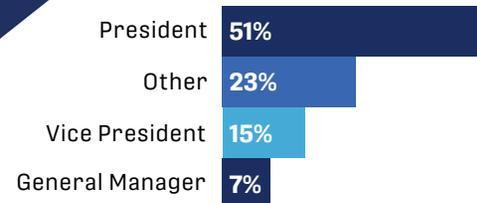

Participate in year-round activities designed to bring the electrical industry together. Let IEC and SPARK serve as the building blocks to close business in 2024 and a pipeline of future growth into 2024.
