

## May 6 – IEC ED Covid-19 Sharing Session

Below are resources and quick notes discussed on the zoom meeting.

### Resources

**How to Take Care of Your Mask** – <https://coronavirus.ohio.gov/static/responsible/Manufacturing-Distribution-Construction.pdf>

**CDC – Reopening Guidance for Cleaning and Disinfecting Public Spaces, Workplaces, Businesses, Schools, and Homes**

<https://www.cdc.gov/coronavirus/2019-ncov/community/reopen-guidance.html>

**Responsible Restart Ohio: Manufacturing, Distribution, & Construction**

<https://coronavirus.ohio.gov/static/responsible/Manufacturing-Distribution-Construction.pdf>

### Other Notes

- Discussion was had on thermometers.
  - Some chapters are keeping a log as apprentices come in the door. They check temperature twice – as soon as they come in and 20 minutes later. Have apprentices sign a waiver that the building is under pandemic guidelines, voluntarily participating and will not sue.
  - How to regulate this as people's body temperatures vary: some run high and others low?
  - 104 degrees is max. Anything over must be sent home.
  - Natasha from FLWCC is speaking to a rep that is selling a thermometer that measures skin temperature. She will follow-up with more information and cost.
  - Asked National to consider getting a better discount with a company as they would have a greater buying power with all the IEC chapters
  
- Preparing for Fall Classes
  - Chapter will be practicing social distancing and online. Many chapters are considering a hybrid of in class and online classes and are also considering a 12-month schedule.
  - Some are focusing classroom space for Labs for 3<sup>rd</sup> and 4<sup>th</sup> year apprentices.
  - One chapter will allow the first 100 students that enroll to do in-person class while the others will have to do online.
  - Looking at current classroom space to see how many apprentices can fit accommodating social distancing
  - There was a discussion on labs and how chapters use them.
  - Can the New Worker Program be taken online?
  
- ATP
  - Are they prepared for the fall?
  - More chapters may opt for drop ship as opposed to receiving the curriculum at their office and having a gathering where they would distribute it to the students. What would be the lead time ATP needs? How much is S&H?
  - Can a few lessons be uploaded for the start of the schoolyear? This would help in case there are any CMS logistics with logging-in.
