

Level I Instructor Training Application

Level I certification recognizes that the instructor has completed an online course of study intended to provide basic knowledge on IEC, apprenticeship training, chapter organization and management, as well as a basic orientation to adult learning styles and classroom management. This course will give the candidate necessary information to begin teaching. Completion of the course is intended to begin to prepare the instructor for the training requirements established by the Department of Labor and will prepare them for the Level II Training.

Level I certificate is valid for two (2) years after issue.
