Chapter Development

Raleigh

We continue to have three members interested in being part of the founding Board. The plan is now to offer an OSHA-10 class in the area to show one of the many benefits IEC offers. An instructor has been identified. Once a location is secured, a date will be scheduled and promotion for this class will begin.

Louisiana -Baton Rouge/New Orleans

We had an in-person meeting scheduled for September 26 with EXXON and their electrical contractors to discuss pathways to create an IEC chapter. We had a morning meeting in Baton Rouge and then traveled to New Orleans. The team that was on site: Thayer Long, RaeShawn Crosson, Luisa Reyes, Ernie Mora, and Julie Tucker.

Washington

IEC National is working with IEC of Oregon to cultivate relationships with key stakeholders. We have met with ABC and they have recently submitted their standards to the state. Brandon Hill with RINC Electric, and new to IEC, will be at SPARK and hope he will become one of our cheerleaders in Washington.

Greater Charlotte IEC – Full Chapter Presentation

Greater Charlotte IEC executive director and board members presented their request for full chapter status. They went over their work achieved as a provisional chapter and went over their business plan and budget.

Motion by Matt Hittinger and seconded by Tim White to recommend to the Board to approve Greater Charlotte IEC's request for full chapter status, motioned carried and approved.
