

CHANGES FOR 2026-2027

First Year kits now include the *Electrical Fundamentals* textbook, as well as an updated manual that aligns with this new book. All years have been updated to the 2026 NEC®.

APPRENTICESHIP & CURRICULUM:

Below is the current pricing for the 2026-2027 school year:

ELECTRICAL APPRENTICESHIP

(Includes textbooks, student materials, and CMS access for each student)

First Year Student Kit: \$352.27

Second Year Student Kit: \$352.12

Third Year Student Kit: \$383.03

Fourth Year Student Kit: \$318.67

INSTRUCTOR BUNDLES

Instructor Bundles for all years: \$215.00

IEC will once again provide at least one set of complimentary instructor bundles per year (four total). Chapters are eligible for one additional instructor bundle per every 20 apprentice kits purchased the previous school year. IEC will fulfill your request for which year based upon the results of the survey each Executive Director completed.

*If you are unsure how many free instructor bundles your chapter is eligible for or if you want to amend which year instructor bundle you would like to receive, please contact **Chrissy Skudera at cskudera@IECI.org**.

CONTENT MANAGEMENT SYSTEM (CMS) AND GRADUATION CERTIFICATES

The online CMS will be available for all four years and is included with each apprentice kit. To enroll your CMS classes, please **download this form**, complete, and email back to **LMSsupport@atplearning.com**.

NEC® CODE BOOKS

2026 Code Books will be offered at \$135.20 for those who choose to order through ATP.

SUPPLEMENTAL TEXTBOOKS

CENGAGE

Cengage Learning's *Grounding and Bonding 8E* comes with the Instructor Companion website with an answer key and additional information which Cengage will continue to offer to our instructors free of charge.

Cengage's MindTap for the CMS requires a licensing fee.

For more information on other instructor resources and setting up MindTap, please contact **Thomas Parsons** of Cengage at **thomas.parsons@cengage.com** or (856) 296-7005 for help in obtaining these other materials.

ATP

Electrical Systems and *Electrical Motor Controls* instructor resources and answer keys are on the CMS under Instructor Resources. Please contact ATP customer service directly at (866) 216-2002 if you have any questions.

OTHER TRAINING RESOURCES

CONSTRUCTOR

Should you need to order a copy of the Constructor software which is used to create ladder diagrams and schematics, it is offered directly from the software manufacturer.

ONLINE BOOKSTORE AND BOOK ORDERING

The turnover date for 2026-2027 materials to be added to the online bookstore and for old material to be removed from the store is the last day of May. The bookstore will be open to receive 2026-2027 curriculum orders on June 1, 2026.

The Online IEC Bookstore, hosted by ATP, is a secure website that is password protected. The below PINs allow various levels of access based on position.

If you have any questions regarding how these codes should be distributed, please contact **Chrissy Skudera**.

IMPORTANT PINs

There are seven groups that are assigned PINs (Apprentices in First, Second, Third, and Fourth Year; Executive and Training Directors; Special Systems; and Contractors). **Of these seven groups only the four Apprentice PINs change annually.**

Changing the apprentice group PINs will prevent an apprentice who moves on to the next year from being able to access the site with their “old” PINs. This should eliminate the possibility that an apprentice would access the incorrect year when going to purchase their next year’s material.

www.iectraining.com

These PINs will all become active at the beginning of the new school year when orders can start being taken.

There are three basic ways to access the site:

A. Students ordering their own books

First Year Apprentices - students given this PIN will only be able to view and order first-year student curriculum kits, related instructional material, and blueprints.

FIRST YEAR Apprentices’ PIN: IEC141194

Second Year Apprentices - students given this PIN will only be able to view and order second-year student curriculum kits, related instructional material, and blueprints.

SECOND YEAR Apprentices’ PIN: IEC278040

Third Year Apprentices - students given this PIN will only be able to view and order third-year student curriculum kits, related instructional material, and blueprints.

THIRD YEAR Apprentices’ PIN: IEC311223

Fourth Year Apprentices - students given this PIN will only be able to view and order fourth-year student curriculum kits, related instructional material, and blueprints.

FOURTH YEAR Apprentices’ PIN: IEC430277

Students ordering their own books for Special Systems courses being offered at chapter as continuing education. Students given this PIN will only see Special Systems courses and no other apprenticeship curriculum kits.

Special Systems PIN: IECE53494

B. Chapter Executive Director or Training Director. This PIN will allow Executive Directors and TDs to see all student and instructor bundles, all related instructional materials for all years, blueprints, and Special Systems courses - both student manuals and instructor manuals.

EXECUTIVE AND TRAINING DIRECTORS’ PIN: IECD93467

C. For chapters who have contractor members order books directly. Contractors given this PIN will see all four years of student curriculum kits but no instructor bundles. (This PIN will only be used by certain chapters.)

CONTRACTORS’ PIN: IECC73022
